

IN 1974, BOB FOX STARTED RACING HIS products in motocross and we haven't stopped racing since. FOX Racing Shox™ equipped vehicles and racers have stood atop podiums in every sport we have competed in, from the sands of Baja to the dunes of Dakar.

For 35 years we have supported racers and teams with the best suspension available for ATVs, motorcycles, mountain bikes, offroad trucks, side x sides, snowmobiles, and UTVs. Our team of Engineers performs rigorous tests with our athletes year round. The data we collect from performance testing and our application of that knowledge to our product is what separates FOX Racing Shox from every other suspension company.

We have made suspension since 1974. It is all that we do, and it is all that we have ever done. We design, test and manufacture our high performance, engineering driven, purpose built tools right here in our factory in Watsonville, California, USA. This is not just our job; this is our passion. This focused passion is alive and well within FOX Racing Shox, fueling the innovation you've come to expect from us for the present and the future.

FLOAT® 2

FEATURES AND TECHNOLOGIES

THE ULTIMATE "2 FOR 1" COMBO WITHOUT COMPROMISE, THE ALL-NEW FLOAT 2 FEATURES FASTER, STIFFER CORNERING WHILE MAINTAINING ULTRA RIDE PLUSHNESS, MAKING IT THE ONE AND ONLY CHOICE FOR DO-ANYTHING SLEDDING.

- IFP (Internal Floating Piston)
- Higher internal air volume (for better roll stiffness in corners while maintaining plush shock action)
- Fully rebuildable and revalveable
- 6 pounds lighter than coil shocks
- Advanced velocity-sensitive high-flow damping
- Chrome silicon negative spring
- Progressive spring rate

ADJUSTMENTS

Infinitely adjustable air spring

APPLICATIONS

Trail and Mountain

FLOAT R EVOL™

NEW FOR 2010
Now available for popular short-track trail sled models

TAKE YOUR RIDING TO THE NEXT LEVEL OF PERFORMANCE AND ADJUSTABILITY. SPRING RATES CAN BE EASILY ADJUSTED FOR YOUR RIDING STYLE AND TERRAIN. FINE TUNE YOUR RIDE HEIGHT AND PLUSHNESS INDEPENDENT OF YOUR BOTTOM-OUT RESISTANCE AND ROLL STIFFNESS. THE FLOAT R EVOL DELIVERS AN ULTRA-WIDE RANGE OF EXTERNALLY ADJUSTABLE REBOUND DAMPING WITH INFINITE DUAL-STAGE AIR SPRING ADJUSTABILITY. INSIDE THE ANODIZED 6061-T6 ALUMINUM BODIES THE APPLICATION SPECIFIC VALVING WILL SOAK UP EVEN THE HARDEST OF TERRAIN.

- IFP FLOAT with EVOL chamber (for Dual Air Performance)
- EVOL Dual Air Technology in a more affordable package than our FLOAT X EVOL
- Fully rebuildable and revalveable
- Lose up to 6 pounds off your sled when replacing coil shocks
- Advanced velocity-sensitive high-flow damping
- Chrome silicon negative spring
- Progressive spring rate

Main air chamber (ride height and plushness)
EVOL air chamber (bottom-out resistance and roll stiffness)
Wide-range rebound adjuster

Dual Air

Snowmobile Racing, Trail, and Mountain

FLOAT X EVOL

IN RACING, EVERYONE KNOWS THAT TAKING A DIFFERENT LINE IS ALWAYS THE BEST WAY TO GET INTO THE LEAD. NOT FOLLOWING THE PACK HAS BEEN THE INSPIRATION FOR OUR HIGH PERFORMANCE LINE OF RACING SHOCKS SPECIFICALLY DESIGNED AND ENGINEERED FOR RACING. THE INNOVATIVE FLOAT X EVOL DELIVERS AN ULTRA-WIDE RANGE OF EXTERNALLY ADJUSTABLE COMPRESSION AND REBOUND DAMPING WITH INFINITE DUAL-STAGE AIR SPRING ADJUSTABILITY — SPRINGS ARE HISTORY.

- Ultra-lightweight (4.6 lbs. at 19.5")
- Samurai Sealing System (SSS)
- Piggyback or remote reservoir
- Advanced velocity-sensitive high-flow damping
- Chrome silicon negative spring
- Progressive spring rate

Dual Speed Compression Adjuster (DSC)
Main air chamber (ride height and plushness)
EVOL air chamber (bottom-out resistance and roll stiffness)
Wide-range rebound adjuster

Dual Air

Snowmobile Racing, Trail, and Mountain
